**Dear Brighton Fringe Team,**

I am writing to follow up on previous communications regarding the serious safeguarding failures that have occurred around my case and the unlawful involvement of PC Jon Dixon.

You will now have received a formal letter from **Veritas Justice CIC**, confirming they have been supporting me since November 2024, that my case was reviewed at MARAC and the Sussex Police Stalking Clinic, and that bail conditions against Miss Alanna O'Hare were in place throughout the Fringe planning period. They also confirm that the situation remains ongoing and unresolved, with no recent police update.

This letter stands as formal, third-party confirmation of everything I have been stating for months — including the police's own internal record of Miss O'Hare's arrest, the seriousness of the allegations, and the ongoing investigation under **crime reference 47240141246**.

In addition to this, Veritas is now aware — and able to confirm if requested — that I have submitted:

- Full recordings of multiple calls, emails, and messages from Sussex Police, particularly from PC Dixon
- A timeline and evidence archive of **all misconduct, negligence, and obstruction caused by PC Dixon**, including failure to log my suicide attempt, inappropriate contact with the suspect, and misrepresentation of evidence
- A formal request to be assigned a **new officer** due to loss of trust, which Sussex Police have been made aware of

You may contact Veritas Justice directly for verification. I have given them permission to confirm the facts of the case and answer any questions relating to my safeguarding status.

At this stage, I ask Brighton Fringe to:

1. **Formally acknowledge receipt of the Veritas letter**
2. **Cease all internal or third-party discussion about my mental health or police involvement unless based on factual information confirmed by Veritas or the new officer**
3. **Confirm whether any such discussions have taken place without my consent** — particularly in reference to false claims that I am not cooperating or that the police found no wrongdoing
4. **Acknowledge that PC Dixon is no longer my officer, and agree to respect that boundary moving forward**

This is not about punishing the Fringe. It is about restoring control over my narrative and safety. My advocacy team exists for a reason — and they have now formally confirmed the seriousness of what I disclosed, as well as my lawful right to protect myself and my work.

I expect a written confirmation that the above points have been noted, and that the Fringe will now act with full transparency in response.

Best regards,

**Ben Carter**
